

The story about DANIEL WELLINGTON

The story behind Daniel Wellington begins with a trip half way around the globe where I, Filip Tysander - the founder of Daniel Wellington, met an intriguing gentleman from the British Isles. The man had an inspiring ability to be genteel but still relaxed and unpretentious. He had an impeccable style and loved to wear his vintage watches on old weathered NATO straps. His name? Well, Daniel Wellington of course.

A strong friendship emerged between the two of us and I was inspired not only by the man's many great life stories but also by his manners and timeless style of fashion. As we now know, I was so inspired that I decided to name a new brand of watches after him. We believe that we have managed to capture a bit of Daniel and his style in our watches and we trust that he would be proud of what we have achieved so far.

At Daniel Wellington we are always keen on letting our Scandinavian identity shine through in our design. We believe in keeping it simple, using clean lines as a reflection of superb craftmanship and letting the design speak for itself. The key is keeping the design aesthetically exquisite and still staying true to the Scandinavian core themes – modernism and functionalism.
